The Sophisticated Cat offers reasonably priced collars for the pet owners on a budget and offers the higher priced collars for the pet owners that spare no expense to please their furry best friends. There are numerous other compelling features of these collars. All collars are lead free as well as scratch and wear resistant, are strung on sturdy coated wire, and have a safety magnetic closure that will break away in a precarious situation. Additionally, the collars are available in five different sizes and each collar arrives in a black velvet pouch that provides style and protection! The market today is flooded with the traditional nylon and belt buckle clasp style collars.
